Summary

Number of lecturers who are women increased by 82 percent

The number of lecturers who are women has gradually increased over the years. Between 2003 and 2013 the number increased from 2 000 to 3 700 full-time positions, implying an increase by 82 percent in the number of lecturers who are women. During the same period the number of lecturers who are men increased by 7 percent, from 4 100 to 4 000 full-time positions. The number of lecturers who are men decreased during the years 2004-2008, but since 2008 it has increased by around 3 percent per year.

The number of lecturers re-calculated as full-time positions, per sex during the period 2003-2013

All staff

In October 2013 the total number of employees at universities and institutes of higher education amounted to 75 700 persons, the highest number ever. Compared to 2012, this is an increase of 2 200 persons, or 3 percent. The number of employees re-calculated as full-time positions amounted to 60 200.

Women and men

The number of employed women at universities and institutes of higher education was 39 100, or 30 900 re-calculated as full-time positions. The corresponding number of men was 36 500, or 29 300 full-time positions.

The research and teaching staff

Between 2012 and 2013 the number of those in research and teaching positions again increased. In 2013 the number amounted to 33 900 persons. Re-calculated to full-time positions this amounts to 28 500, of whom 12 400 are women and 16 100 are men, or 44 percent women and 56 percent men.

Lecturers, professors and those in the category of other research and teaching staff increased in numbers. However, the number of senior lecturers continues to drop. The number of those in the category for qualifying posts also dropped.

Uppsala University had the most full-time positions with research and teaching duties.

Of all the research and teaching staff, close to 71 percent of the full-time positions are at the 10 largest universities and institutes of higher education. Uppsala University is the university with the most full-time positions, 3 000.

Most are working in the research field of social science

Of all the research and teaching staff, 24 percent work in the research field of social science, 7 000 full-time positions. Nearly as many, or 6 800 are in the fields of medicine and health sciences. In the last-mentioned field, the single largest field of science is found, clinical medicine with 2 100 employees in full-time positions.

The number of permanent employees is now at 69 percent

Of the research and teaching staff at universities and institutes of higher education, 69 percent have permanent positions and 31 percent have temporary positions. The highest proportion of permanent positions is in the research area of agricultural science at 78 percent. The highest proportion with temporary positions, 36 percent, is in medicine and health sciences. All information refers to full-time positions.

Most employees are in the 40-49 year age interval

Among those researchers and teachers, most employees are in the 40-44 year and 45-49 year age groups with slightly more than 4 700 each, or 14 percent. The number in the age group 65 and older continues to increase, and more and more continue to work after age 65. This phenomenon mainly occurs in the employment field for professors, with 404 full-time positions, or 777 individuals in 2013.

Two-thirds have an education on the doctoral level

Among researchers and teaching staff, 67 percent have an education on the doctoral level. Among the women in the group, 61 percent had an education on the doctoral level and the corresponding share for men is 71 percent. Compared with 2012, this is an increase of 1 percentage point for both women and men.

List of terms

Adjunkt	Junior lecturer
Administrativ personal	Administrative staff
Annan forskande och undervisande personal med doktorsexamen	Other academic staff with doctoral degree
Annan forskande och undervisande personal utan doktorsexamen	Other academic staff without doctoral degree
Annan humaniora	Other Humanities
Annan lantbruksvetenskap	Other Agricultural Sciences
Annan medicin och hälsovetenskap	Other Medical and Health Sciences
Annan naturvetenskap	Other Natural Sciences
Annan samhällsvetenskap	Other Social Sciences
Annan teknik	Other Engineering and Technologies
Anställda	Employees
Anställningsform	Terms of employment
Anställningskategori	Type of employment
Antal	Number
Arvodist	Temporary employee
Bibliotekspersonal	Library staff
Biologi	Biological Sciences
Bioteknologi med applikationer på växter och djur	Agricultural Biotechnology
Data- och informationsvetenskap	Computer and Information Sciences
Doktorand	Doctoral student
Doktorsexamen	Doctoral degree
Ekonomi och näringsliv	Economics and Business
Elektroteknik och elektronik	Electrical Engineering, Electronic Engineering, Information Engineering
Filosofi, etik och religion	Philosophy, Ethics and Religion
Forskande och undervisande personal	Teaching and research staff
Forskarassistent	Postdoctoral fellow
Forskarutbildning	Third cycle programmes
Forskningsämnesgrupp	Field of application
Forskningsämnesområde	Field of science and technology
Fysik	Physical Sciences
Geovetenskap och miljövetenskap	Earth and Related Environmental Sciences
Gäst- och timplärare	Guest lecture and part time teacher
Helårspersoner	Full-time equivalent
Historia och arkeologi	History and Archaeology
Humaniora	Humanities
Husdjursvetenskap	Animal and Dairy Science
Hälsovetenskap	Health Sciences
Högskola	Institute of higher education
Industriell bioteknik	Industrial Biotechnology
Juridik	Law
Kemi	Chemical Sciences
Kemiteknik	Chemical Engineering
Klinisk medicin	Clinical Medicine
Konst	Arts
Kvinnor	Women
